

What children say about the KidSafe UK programme:-

- It is amazing for kids to learn how to keep safe.
- I know what to do if something goes wrong.

Tens of thousands of children have participated in KidSafe UK programmes and 99.39% of children taught, said that all children should do a KidSafe course.

What head teachers/DSLs & mental health leads say about the KidSafe UK programme:-

- KidSafe is a brilliant course which needs to be in all schools as it directly teaches children how to keep themselves safe from abuse and harm in a fun non-scary way.
- The programme provides schools with an effective framework to tackle difficult issues promoting children's resilience and positive mental health.
- The programme is delivered in a fun way but with a serious message running alongside and with no use of explicit language or materials. The programmes are always age appropriate, fun and entirely child centred.
